

Amazing A Level Results 2017

2017 has been another fantastic year for Year 13 students at Allerton High School. We were delighted with both the exam results of our students, and also the destinations that they secured.

- Almost a quarter (22.3%) of grades awarded were A* - A.
- Over half (51%) of the A level grades awarded were A*, A or B grades and the pass rate was 98%.
- Nearly three quarters (73.4%) of grades were A* - C.
- Results for overall academic performance were **significantly above** national average in 2016, leading to strong Post 18 options available for our students.
- Average UCAS points per student was 300.2 (approx. BBB)

106 of the 110 students seeking a University place were placed this year with only a handful using clearing. 31% of these places were at the more prestigious Russell Group Universities including Medicine and Dentistry and some prestigious scholarships at Russell Group Universities. Our students also took up offers in America and Holland, as well as apprenticeships in Engineering, Aerospace and childcare and healthcare. We are very proud of the diverse paths followed by our students, and the futures these paths secure for them.
