Learning Resources

On Ashnet, following links to Business- <https://intranet.ashlawn.org.uk/business-studies-y12-and13>

Learning Strategies

Applying knowledge to exam questions, buddying up and testing each other, self-quizzing after reading part of a topic, re-writing text/information in a different way. Working specifically on extended essay questions using techniques taught within the classroom.

Writing Long Answer Questions

Read the questions carefully and identify whether a Level 3 or level 4 response is required. Remember your answer needs to be contextualised and should be bespoke to the particular business. Attempt to write in depth on two or three specific issues, rather than coming up with a bullet pointed list. High marks are awarded for detailed responses which dig deep.

Independent study

Read through class notes and refer to power-points and other information sources on Ashnet. Use websites such as www.tutor2u for further clarification as and when required.
