Learning Resources

Past Papers - <http://www.ocr.org.uk/qualifications/as-a-level-gce-physics-a-h158-h558/>

Ashnet/School website will have various tasks/glossary/etc

Textbook/Kerboodle

Learning Strategies

Regular testing on key terms and key equations/Flash cards

Past paper questions

Keep going over past topics regularly, it's a lot easier than forgetting and having to learn it again.

Writing Long Answer Questions

Read the question carefully

Don't forget the easy stuff, many students lose marks for not including points they think are too obvious.

Make sure you look at what you are asked to do: Compare? Describe? Explain?

Independent study

Reading before a lesson

Learn key terms

Improve your understanding of the key topics

Follow the plan on ASHNET (being produced during GT)

Questions questions questions!!!
