

Vlth Form 2017 Exam results

An excellent day for Barnhill Community High students!

Barnhill Community High School is celebrating the success of their A Level and Vocational students today, with results highlighting real year on year improvement in the attainment of the highest grades.

Subjects in which particularly high numbers of entries achieved A*-A were Sociology, Government and Politics, Music; Maths; ICT and Biology. This really highlights the depth and breadth of skills and knowledge our students acquire during their KS5 education.

There has been significant focus within the School to ensure students are well placed to go on to the next stage in their life and are delighted that the vast majority of our students achieved the results to go on to their first choice University.

Executive Head Teacher Tracey Hemming said:

“The drive for improvement and academic success at Barnhill is continuous and is reflected in these results. The Vlth form students have benefited greatly from the committed and talented teachers at Barnhill. The influence and maturity of the Vlth formers has also added to the purposeful ethos of the School and as role models, they are excellent examples for the younger students. There are many well deserved successes to celebrate today and many students well prepared for the next part of their educational journey. I and the staff at Barnhill couldn't be more pleased for them.”

Individual successes include:

Aaranjah Vickneswaran achieved A*AA and is now off to Imperial College, University of London to study Maths

Ali Obeid achieved A*AA and is now off to the LSE to study Government and politics

Nilaksiga Sangarathas achieved AAA and is now off to Nottingham University to study Economics

Lina Ahmed achieved A*AB and is now off to Brunel University to study Maths.

Haider Ali achieved AAB is now off to Queen Mary's University Of London, to study Finance and Accounting

Macey McDermott achieved ABB and is now off to Southampton to study History

Other outstanding students with significant barriers to overcome:

Joseph Saunders A*A*A* is off to Portsmouth University to study Music Technology. He worked hard to overcome his severe dyslexia.

Gautam Sharma ABD is off to Queen Mary, University of London to study Chemistry. He had significant speech difficulties throughout his GCSE years, but has worked hard during his sixth form years to overcome this impediment and has achieved a place at his chosen University.

Nithusa Partheepan CDD is off to Middlesex University to study Accounting – arrived in England as a refugee just 3 years ago without any English, but has worked incredibly hard to achieve these results.
