### What do I need to do?

- Please choose four options that you are interested in studying after Year 11.
- If you are struggling to decide on which subjects to choose please approach your tutor / careers guidance member of staff for support and advice.
- Remember—it is important to choose those subjects that you really want to ‘taste’ rather than going for those that your friends have chosen, just so that you can be together.

### Will I get to do the sessions I choose?

- During the day, you will get the opportunity to take part in two out of the four different options you have chosen. However.....
- Some of the sessions last the whole morning in which case you will only be able to ‘experience’ one — these are clearly labelled throughout so please take this into consideration when making your choices
- Please bear in mind though that many of the workshops have a maximum capacity of 15—20 students and you will be allocated on a first come first served basis.
- We will fit you in to two of your four choices.
- Where we are unable to accommodate you in any of your choices, we will contact you to discuss further options.
