

# **Chipping Norton School Vision and Values**

## **1. Leadership**

**Our leaders will be supportive, strong and moral, forging and communicating a clear and purposeful vision. They will hold themselves and others to account, and create an inspirational and empowering environment for all.**

## **2. Teaching**

**We will have vibrant and inspirational teaching that raises aspirations, challenges, engages and prepares every member of the school for life.**

## **3. Behaviour**

**All individuals will take personal responsibility for modelling positive values and behaviours, taking tough decisions when necessary, resulting in outstanding behaviour in all areas of life.**

## **4. The school environment**

**We will create a shared environment where learners can be the best that they can be, in spaces which are safe, inspiring, welcoming and attractive and fit for purpose. The activity should define the space, not be constrained by it.**

## **5. Learning**

**We will have a school where learners are motivated and inspired; where curiosity is sparked; and where we strive to be the best that we can be.**
