

Spring Term 2

Year 2 are going back in time to explore London during 1666, to learn all about the Great Fire of London and its impact on our city.

Fire! Fire!

As readers, we will explore a range of non-fiction texts to learn about the Great Fire of London.

As writers, we will write a factual historical recount of this event, before writing fictional diary entries as if we had been there at the time.

As mathematicians, we will be focusing on fractions and time, with plenty more reasoning and problem-solving using all four operations.

As scientists, we will be exploring and asking scientific questions about plants. We will be investigating the best conditions for cress plants to grow around the school building.

As artists and designers, we will be creating a backdrop in the style of *Jan Griffier* and *Lieve Verschuier* using silhouette art.

As historians, we will be researching about famous historical figures and create a puppet show to recount the event.

As musicians, we will be making our very own instruments to perform on.

As theologians, we will be exploring the meaning of the Lord's Prayer then discussing the importance of Easter for Christians.

As computer scientists, we will be creating graphs to present information about the number of houses destroyed by the fire.

As members of our class community, we will be thinking about how our behaviour impacts others and how we all have responsibility to take care of the world we live in.
