

Spring 2, 2019

During Spring 2 in Year 4, we will be looking at:

CUNNING CREATURES

As **Writers**, we will be creating posters, narrative stories, explanation texts and poetry based on creatures with super powers! We will also be creating diary entries based on own school journey.

As **Mathematicians**, we will secure our knowledge of decimals and money.

As **Theologists**, we will be learning about the importance of Easter and understand who is the most important in the Easter story.

As **Scientists**, we will be developing an understanding of animals including humans.

As **Designers**, we will be cooking up a storm in the kitchen! By baking a variety of healthy breads.

As **Geographers**, we will be exploring rivers using atlases, maps and diagrams to produce a non-chronological report about pond life.
