

De medical service of the European School MOL (SMS)

Who are we?

The medical team has 2 school doctors, Dr. Andreas Verbeke and Dr. Sophie Kransfeld and one school nurse, Mrs Yoke Moortgat

Where and when can we be reached?

You can find us in the building of the primary school.

The phone number of the medical service is 0032-(0)14563140

The school nurse is present during school hours.

The school doctor for our students is present at the medical department in our school on Tuesday afternoons for the preventive medical examinations.

Practice: Turnhoutsebaan 19 – 2400 Mol - Telephone: 014/31 30 11

What do we do?

• Medical consultations

- General medical examinations: new students, nursery school (4/5/6 years of age), pupils of Year 1 and Year 5 year of the primary school and students of Year 2 and Year 4 of the secondary school.

- Selective examinations for special problems

- Individual examinations on the demand of the pupil, the parents or the school

• Vaccinations

On demand of the parents we administer vaccinations at our school. To facilitate this process, it is very important to give in the exact dates of previous vaccinations.

• Advice

You can contact us for all kinds of problems: hygiene, health, teeth, safety etc. We will always try to find a solution; if necessary we will contact other services.

All contact with the medical team is confidential

• Multi-disciplinary consultation

Because the medical service is mainly advisory, it is very important that there is a continuous follow-up of your child. For that reason, we ask you to report any problems and we also ask permission to ask for your child's file from his former school.

The data is stored in a personal electronic file.

- **School insurance**

The school is covered by insurance in case of an accident at school (or on the way to/ from the school). The forms needed to declare an accident are available at the medical service and on the school website. The school nurse does the follow-up. When the parents are unable to come immediately when their child has a severe accident the school nurse will accompany the child to the hospital, if necessary.

- **Sick children**

In case of an acute illness and the parents are unable to come and get their child, a student can stay at the medical service. However, children cannot be sent sick to the school to stay an entire day at the medical service.

- **Contagious diseases**

In case of a contagious disease we will immediately notify all parents, therefore we also ask you to report to the school in case where your child has / is suspected of a contagious disease.

What do we expect of you?

- **Fill in forms**

When you enroll your child and every time your child has a medical examination, you will receive several forms. Please fill them in as completely as possible.

- **Health**

Should anything happen that can influence your child's behavior / health (accident, disease etc.); please inform the medical service, so we can provide the best possible care for your child.

If your child should get lice or nits, please inform us, so we can alert the other parents (without revealing the name of your child)

- **Contact the medical service**

If you have any kind of problems, if there is anything you want to ask, please do not hesitate to come to the medical service. The phone number of the medical service is 0032-(0)14563140 – email: yoke.moortgat@eursc.eu
