

Modern Foreign Languages - French

At Fullwood primary school, we embrace the value of learning another language in enhancing a child's academic and personal growth. The Modern Foreign Language taught at Fullwood is French.

We aspire to develop our pupils' self-confidence, independence and communication skills through interactive and engaging French language-learning experiences. Lessons are structured to provide regular opportunity to orate, converse, read and write in French, with ongoing opportunities to develop an appreciation of other cultures and languages. Using a progressive scheme for French, the target language is reinforced and extended, with staff always striving to instil in pupils a

lifelong passion for language and communication in all its forms.
