

Should screens be banned at dinner time?

Four of the key medical advisors for the UK have said this week that phones/tablets should be banned from the dinner table a part of a healthy approach to these devices. What do you think?

Hot Topic Friday 😊

Should screens be banned at dinner time?

- A** – Dinner should be family time, phones/screens should be put away
- B** – There isn't a problem, people should be free to use them as and when they wish
