Mathletics

Dear Parents and Carers,

We are writing to remind parents that the school subscribes to the fantastic maths platform, **Mathletics**. The web address is www.mathletics.co.uk

With this letter, your child has been given their special individual username and password card, which enables each child from Year 1 to Year 6 to log on to Mathletics. Please keep this at home, safely on your fridge or wall, and you may wish to enter the details on your phone, so they are always to hand.

The website has a huge range of maths activities which will help your child enjoy improving their maths skills. With the "Play" feature, children can take part in "Live Mathletics", where they improve their mental maths skills by competing against children in their class, in the whole school or even around the world! There are also a range of other maths activities in this 'Play' section.

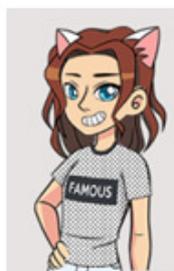

In the "Learn" section, your child can gain confidence in all areas of maths, completing activities and gaining immediate feedback on questions. We encourage children to go on to Mathletics for at least 15-20 minutes, 3-4 times a week (or as often as possible) to get in to a healthy habit of improving their maths, and to enjoy building their skills in this way. Make sure you save the website amongst your favourites on your computer or device at home. In school, we encourage usage through class certificates, given out monthly, and also a friendly league table of classes to see if your child's class can reach the upper reaches of the leaderboard!

NB: When you log in, you may be asked to either "Stick with old Mathletics" or "Explore the new Mathletics" – ***please select "Explore the new Mathletics"***.

We are really excited about encouraging all of the children to use Mathletics this year, we hope they will find it enjoyable, and we are confident Mathletics can really help to build your child's maths confidence, skills and enjoyment. Please support us in encouraging your child to use Mathletics on a regular basis, and do feel free to contact us if you have any queries about Mathletics.

Yours sincerely,

Mr Savage and Mrs Linney
Phase and Maths Leaders
