You might have heard the news last month that the Women's World Cycling Tour will be coming through Warwickshire on 9th June travelling from Atherstone and finishing up in Royal Leamington Spa via a range of historical towns including Kenilworth. One of our former students Ciara Horne will be joining them.

Ciara and her brother both attended Kenilworth School, she finished her education at the University of Birmingham achieving a first class degree in Physiotherapy. She has since starting cycling full time and she first started achieving medals in 2011 in the Irish National Track Cycling championships.

She got her first team gold in 2014 at both the European and World Cup Track Cycling Championships, riding with women cyclists who went on to achieve gold in Rio. Ciara was part of the GB squad at the Rio Olympics.

Good luck to Ciara, we look forward to seeing her on the streets of Warwickshire in June and then (hopefully) representing Wales in the Commonwealth Games next year.
