

Careers@Keswick: Friday 5th July

Festival of Biology (Years 7 and 8)

On Tuesday 2nd July 2 teams of Year 7 and 8 students travelled with Mrs Avery and Dr Cawthorne to the inaugural Festival of Biology, run by the University of Cumbria in partnership with the North West Branch of the Royal Society of Biology and Hello Future. They took part in 2 biology competitions against other schools in the university's STEM labs, winning 2nd and 3rd place in the morning events, and then 1st in the afternoon. The students were commended on their conduct and their teamwork, and we are very proud of their achievements. Thanks to Hello Future and the University of Cumbria who funded the cost of transport and teacher cover. It is very much appreciated.

Creative Careers Open Evening (Years 10 - 13)

This exciting event, run by an ex-student (her first big event!) through Hello Futures, is the first of its kind in the area. Please make every effort to support it. See attached poster for more details.

When: 10th July, 4-8pm

Where: Energus, Lillyhall, CA14 4JW

Who: Students in Year 10 and above (parents and carers welcome too)

An evening to bring together universities, colleges, employers and organisations offering courses or information on creative careers.

Areas covered include:

- Theatre
- Performing Arts
- Music
- Illustration
- Film
- Cyber security
- Museums and archiving

There will be a question and answer session with representatives from different fields and some taster sessions to try out, as well as information to take away.

Lancaster University Politics and International Relations Summer School (Year 12)

Year 12 students have been emailed details of this 3 day summer school residential research workshop (28th – 30th August)

There are grade requirements and widening participation criteria to be met but, because some students have dropped out, the university have advised that there may be flexibility with regards to the widening participation criteria. Apply if you at all interested.
