

Keswick School

MULTI ACADEMY TRUST

April 2019

Dear Sir/Madam

If you are reading this information you will have shown some degree of interest in becoming a Governor at Keswick School and I sincerely hope that the enclosed information will encourage you to put in a letter of application. The vacancies exist due to retirement of two long standing Foundation Governors who have stepped down following many years of support to the school.

The school retains its traditional values and high expectations but also continues to be a pioneer in education locally employing gap year learning coaches, running project and extended school qualifications and developing partnerships with universities and training providers. We are a strong and happy community with a clear vision. Care and support run deeply throughout the school and our students are proud to be Keswickians.

We are looking for a Governor who would like to play a full and active role in the school in support of our aims. This means coming into school and sitting in lessons, getting to know the staff and students and attending performances and events held at the school. Governors should be known by everyone. We want someone who is confident enough to ask searching questions as well as make suggestions for improvement. We do not want someone who just enjoys sitting on committees.

If this sounds like you please write a letter of application addressing the following points and send it to Keswick School for the attention of the Chair of Directors by Monday, 13th May 2019.

1. What do you understand about the ethos and values of Keswick School?
2. What experience of Governance do you have? (including in other employment sectors)
3. What skills and experience could you bring to our Governing body?
4. How well do you know the community in which the school works and what, if any, contributions do you make?

Yours sincerely

Steven Throp
