

**Greetings from  
the children of  
Bakoteh Proper  
Lower Basic  
school in the  
Gambia. How are  
you all at Lawn  
Primary School  
in England? I  
hope you are  
fine.**

**We are very lucky to have friends like you. We are so proud of you. We thank you very much for sending money to help us in our school.**

We now have pencils to use in school so I and my friends will not have to find money to buy them.

These books  
will help us  
in our exams,  
which we  
will be  
starting next  
week

We now have lots of paper for our schoolwork and our teachers can also use it to make posters to help us in our learning.

**We used to bring  
a football from  
home if we have  
physical education  
but now we have  
some in the  
school.  
Thank you so  
much.**

The tap head on our water pipe had broken so we bought a new tap head and now we can have a drink and wash our hands again.

We are very  
happy for your  
kindness.  
Thank you.

We are pleased to receive this kind gesture of yours, the items will help us in achieving our learning goals and objectives. My administration is so much proud of this friendship. We are praying for this friendship to be an ever-lasting relationship between us.

**We hope you  
enjoy the  
summer  
holiday and  
we will be in  
touch when we  
are back at  
school.**
