

Tree House Club

@_TreeHouseClub_

Don't the summer holidays already seem like a distant memory! As we creep towards winter let's have a look what we've been up to since September. The children have been settling into our new hall brilliantly and cherish the extra indoor space available for sports and fitness when the weather outside is dreary-particular favourites include volleyball and interactive fitness!

The Tree House Hive

The Hive has been transformed into the 'Tree House Hive' where children can play a game of table-football, dress up or just read a book.

Breakfast Menu

Being located next door to the kitchen has given us the opportunity to introduce a new breakfast menu- whilst all the regulars remain we have a 'Special' each day which include fruit smoothie, bacon cob, poached egg on toast, porridge, pancakes!

We have welcomed many new children since September. Our reception class children settled in so quickly it's hard to remember what the club was like before them! There has

also been a huge amount of new existing Lawn children joining us which has put us at capacity for most of our morning sessions and many of our afternoon. If your child attends Tree House Club and is unable to attend a session please let us know so we can offer it to a child on our waiting list.

Inset Day

September saw our first inset day session. We had an out of this world experience exploring space through science, craft and food! And of course we had to watch Space Jam.

If you would like to book on to either inset day sessions coming up on the 30th & 31st of October or would like further information please email Mr Dopson on g.dopson@lawn.derby.sch.uk

Polite Reminders

- Once again please ensure your child is signed in/out of every session!
- Please make sure you shut the gate when you enter/leave the school
