

January 2019

Hello all,

We hope you all had a relaxing time off school and have thought about your New Years resolutions for 2019. One of our New Years resolutions at Litherland High is to become more economically friendly and to help our environment.

The Junior Leadership Team have worked with staff and we are excited to inform you of our latest project!

We have teamed up with ‘Terracycle’ in becoming a drop off location for used writing instruments and stationery. Students and staff will be able to deposit their waste in specific bins throughout the school, but we want you to join in too. Anyone can bring in their waste to recycle and we would be delighted for any used stationery at home to be brought in to help us.

Accepted waste in this programme : All writing instruments (except for wooden pencils and chalk) are accepted : Any brand of pen, felt tip, highlighter, marker, correction fluid pot, correction tape, mechanical pencil and eraser pen regardless of their composition.

However, unfortunately we cannot accept glue sticks, erasers, rulers or other cutting objects that could disturb the recycling process. Please be careful not to include any of those items.

Not only will you be helping our planet, but helping our school as well. As for every writing instrument donated, £0.01 is donated to the school.

We look forward to start this project and we are hoping that as many people as possible help us in our aim to become an eco-friendly school.

Thank You,

The Junior Leadership Team
