Local Band Performs at Lyng Hall for Fundraiser

On Friday 29th April from 6:30pm to 8:30pm, Lyng Hall's theatre became the stage for a local, well known indie band called The Prophets. They played a variety of music which included covers as well as their own original songs. The band were well received by those who attended, with many saying that they were glad to have come to the concert.

The exciting event was held in order to raise further funds for the British Heart Foundation and Mount Kilimanjaro campaign, which the BHF Team and the rest of the school have recently been raising money for. Through the combination of ticket sales (which cost £5) and refreshment sales (including tea and a variety of juices) the grand total raised for the campaign was a huge £300! Also contributing to the grand total raised, was the money collected from the 'Guess the Name of The Teddy' competition, which was won by Mr Smith's son, as well as a raffle.

The BHF Team hope to put on more entertaining fundraisers, similar to this, to raise more money towards the cause and allow the team to achieve their grand total of £21,000.

For more information about the BHF/Kilimanjaro Campaign, please see Miss Hagan in the English department. Donations are welcome at https://www.justgiving.com/LyngHall2016

Currently, one of our own Lyng Hall students is participating in the Nuffield Research Placement Scheme that enables around 1,000 students annually, the opportunity to work alongside professional scientists, technologists, engineers and mathematicians. The scheme takes place in the summer, is open to 17 year olds and Selina Ali was lucky enough to be offered a place in this year’s scheme. The first part of the selection process is based on application forms and if selected, is followed by a formal interview process.

Selina decided to choose biomedical science as her research topic – this mostly focuses on cells, organs and systems function in the human body. Whilst researching and performing experiments with scientists, Selina has to report her findings to the experts. There is also the opportunity to be entered into a national competition to win a Gold Crest Award. This would be a fantastic achievement and would also look amazing on a UCAS application to University. It is a once in a lifetime experience.

Hopefully Selina enjoys her time during the placement scheme and gets as much from it as she can. To find out more information about the scheme, visit [http://www.nuffieldfoundation.org/nuffield-research-placements](http://www.nuffieldfoundation.org/nuffield-research-placements).
MESSAGE FROM THE EDITORS

Another great week!

Mount Kilimanjaro Challenge

Meet the Team

Four students are going to face the immense challenge of climbing Mount Kilimanjaro for the British Heart Foundation in the next academic year. This charity is close to many hearts, to be able to conquer this opportunity, the team has to raise £23,400 with the leadership and support of Miss Hagan and Mr Cook.

“I am incredibly proud of the commitment of our students—not only to conquer the physical, emotional and mental challenge of Kilimanjaro; but also to dedicate their time to fundraise such a significant sum. I know the money they raise will mean so much to families who are affected by this devastating disease. I—and the team—thank you for your support in being here this evening” - Miss. Hagan
