Dear Parents

It was my great pleasure this week to accompany our new school council to London for their annual visit to the Houses of Parliament. We were given a special tour of the Houses of Parliament, and we got to see where the Members of Parliament (M.P.s) meet and give their speeches. After this, we also had a lesson about how we can share our views with our M.P. and how democracy works. We also met up here with pupils from one of our MAT schools (Turves Green Primary). This was a fabulous opportunity for the children to meet one another.

Whilst we were in London, we also took the opportunity to visit some other famous places. We went to Downing Street to see where our Prime Minister lives, Westminster Abbey, Buckingham Palace, Trafalgar Square and Horse Guards Parade. It was a long day, but everybody enjoyed themselves. We have a fantastic school council, who were a real credit to our School and I look forward to seeing the projects they create and work on this year.

Holidays during school time was a big issue for us as a school last year and really impacted on pupils’ learning, confidence and attendance. We have also had a few pupils who have returned to school late because of this. This has not been an ideal start for these pupils as they have missed the first few days with their new classes and teachers. We have had to deal with lots of upset pupils as a direct result of this. Please do try not to book holidays within school time.

Mr Williams
Head teacher

Please remember to send children in Years 3-6 with a piece of fruit every day to have after break time each morning.

We need Midday Supervisors!
If you are interested in working at Parkfield School as a Midday Supervisor, come to our open chat session on Friday 21st September at 11:30am. Application packs will be available on the day.

- Hand Battered Fish Goujons
- Chips
- Savoury Rice
- Sweetcorn & Peas
- Orange or Apple Juice

---

**6 is a very special number.**

The factors of 6 are 1, 2, 3 and 6.

If we add the factors other than 6 we get 1+2+3=6.

Can you find another perfect number?
