

# Parkfield Community School's Young Engineers' Academy

Let us inspire your children to become the engineers, mathematicians and scientists and problem solvers of the future, in our unique, purpose built academy!

We offer a range of inspiring, memorable and tailored sessions, designed to enthuse primary age children about science, technology, engineering and maths.

**“Starting STEM development at primary school would help to challenge the current belief system amongst school children that these subjects are difficult... and open up a variety of career options.”**  
**Sir Mike Tomlinson**

## Our facilities include:

- a green screen TV studio;
- 16 mac minis;
- Lego Mindstorms and WeDo 2.0;
- K'nex equipment;
- a 3D printer;
- Romo robots;
- CAD software;
- iPads
- a radio station;
- a custom, purpose built room.

**Costs, for up to 30  
children, are from:  
£300 (Full Day)  
£200 (½ day)**

**We're now booking  
for 2017-2018!**
