

CLEE HILL COMMUNITY ACADEMY Accessibility Plan

Last reviewed: January 2019

Next review February 2020

Introduction

The SEN and Disability Act 2001 extended the Disability Discrimination Act 1995 (DDA) to cover education. Since September 2002, the Governing Body has had three key duties towards disabled pupils, under Part 4 of the DDA:

- not to treat disabled pupils less favourably for a reason related to their disability;
- to make reasonable adjustments for disabled pupils, so that they are not at a substantial disadvantage;
- to plan to increase access to education for disabled pupils.

This plan sets out the proposals of the Governing Body of the school to increase access to education for disabled pupils in the three areas required by the planning duties in the DDA:

- increasing the extent to which disabled pupils can participate in the school curriculum;
- improving the environment of the school to increase the extent to which disabled pupils can take advantage of education and associated services;
- improving the delivery to disabled pupils of information which is provided in writing for pupils who are not disabled.

It is a requirement that the school's accessibility plan is resourced, implemented and reviewed and revised as necessary. Attached is a set of action plans showing how the school will address the priorities identified in the plan.

Definition of Disability

A person is disabled if he/she has a mental or physical impairment which has a substantial and long-term adverse effect on the ability to carry out day to day activities.

Included in the definition is a continuum of impairments including sensory, dyslexia, autistic spectrum disorder, diabetes, speech and language, severe asthma and learning difficulties resulting from complex profiles of disability. The definition also includes people with progressive conditions including HIV, multiple sclerosis and cancer.

Not included are those children with emotional and behavioural difficulties for social and domestic reasons.

1. Starting points

1A: The purpose and direction of the school's plan: vision and values

At Clee Hill Community Academy , we are always working constantly towards removing any barriers to achievement, in all areas of school life and within the wider community, in order to help pupils achieve their potential . As a result our academy will make every reasonable effort to ensure equality and the removal of barriers for all pupils, parents, staff, governors and visitors, regardless of disability so that our children can access the high quality education they deserve.

This plan should be read in conjunction with our policy and practice in the following areas:

- Special Educational Needs Policy
- Behaviour policy
- Healthy and Safety policy (including administration of medication)
- Child Protection/ Safeguarding Policy

Our school continues to be committed to the five Every Child Matters outcomes with particular regard to pupils of disabilities within this document.

1B: Information from pupil data and school audit

The school's use of information and data to support the school's accessibility plan are:

- To utilise the existing school databases (SIMs, SEN register) in order to plan and adapt provision.
- To ensure all information above is accessible to staff, outside agencies and governors.
- To consult with pupils, parents and outside agencies to agree adequate provision for individual pupil's needs.
- To consult with pre-school providers, primary schools or specialist school to ascertain advance information on the needs of future intake.

1C: Views of those consulted during the development of the plan

The school will:

- Consult widely with all staff, pupils and parents to incorporate all views on the daily provision.
- Consult with LA advisors and outside agencies for specific cases or when opportunities for changes in the physical building occur.

2. The main priorities in the school's plan

2A: Increasing the extent to which disabled pupils can participate in the school curriculum

The school will prioritise improvements for increasing access to the curriculum by:

- Continuing to encourage high expectations among staff and pupils and provide additional provision to allow all pupils to reach their full potential .
- Using specialist agencies (e.g. speech and language, psychologists, Woodlands Outreach, Severndale Centre, SPECTRE etc) to investigate and extend opportunities.
- To provide training and professional development for all staff in order to meet the needs of students.
- To develop an ethos and systems for peer support.
- To consider resourcing of curriculum areas in order to increase access.

2B: Improving the physical environment of the school to increase the extent to which disabled pupils can take advantage of education and associated services:

The school will continue to evaluate its physical environment in order to increase the extent to which disabled pupils can take advantage of educational opportunities. The School's current accessibility action plan (see below) details current priorities. Additionally, when new buildings or refurbishments are planned access for disabled pupils and staff will be considered.

2C: Improving the delivery to disabled pupils of information that is provided in writing for pupils who are not disabled:

The school will provide information in a variety of formats in order to support those with disability e.g. Braille, audio, large print, CD versions etc.

In examples where language barriers may prevent pupils or parents from accessing information translators or local community linguists will be used in order to provide information in meetings or other contact points.

3: Making it happen

3A: Management, coordination and implementation

- The Headteacher will raise awareness of the requirements of the DDA for staff, pupils and visitors, especially the revised categories covered by the Act in relation to the needs of SEN students.
- The Headteacher, Governors and staff will continue to re-evaluate the extent of the provision required both generally and for individuals.
- Findings and areas for development will be linked to the School Development plan.

3B: Getting hold of the school's plan

This plan will be made available to parents, pupils and staff through the school website.
