Parts of a Plant

Part 1

Glue part 1 here.

Cut and stick the descriptions of the jobs in the correct places.

Part 2
Parts of Plants: Descriptions of Jobs

The Stem
The stem holds the plant up. It also transports water and nutrients from the roots to the leaves.

The Flower
Flowers make seeds to grow new plants.

The Leaves
The leaves make food for the plant using sunlight and carbon dioxide from the air.

The Roots
The roots anchor the plant into the ground. They absorb water and nutrients from the soil.
