

Questions for Test 3

For each of the first ten questions you have five seconds to work out and write down the answer.

- 1 Add eight to five.
- 2 Subtract four from nine.
- 3 Round two hundred and seventy-nine to the nearest hundred.
- 4 Write the fraction three quarters.
- 5 Look at your answer sheet. What fraction of the shape is shaded?
- 6 Multiply six by five.
- 7 How many groups of three can be made from twenty-four?
- 8 How many vertices does a rectangle have?
- 9 How many grams are there in half a kilogram?
- 10 What is eighty-three times ten?

For each of the next questions you have ten seconds to work out and write down the answer.

- 11 Look at your answer sheet. What number does the tally represent?
- 12 How much change do I have from five pounds if I spend one pounds eighty pence?
- 13 I am facing West. I turn anti-clockwise through ninety degrees. What direction am I facing now?
- 14 A television programme starts at ten minutes to seven. If it is twenty-five minutes long, at what time does it finish?
- 15 What is the ninth month of the year?
- 16 Look at your answer sheet. Add the two even numbers together.
- 17 What is double eighteen?
- 18 Add eight to fifty-seven.
- 19 Look at your answer sheet. What weight is shown on the scales?
- 20 Add two hundred to three hundred and fifteen.

Put your pencil down. The test is over.
