

Questions for Test 4

For each of the first ten questions you have five seconds to work out and write down the answer.

- 1 Round fifty-two to the nearest ten.
- 2 Write the fraction one third.
- 3 Add together fifty and twenty.
- 4 How much change will I get from one pound if I spend thirty pence?
- 5 What is six times four?
- 6 What is thirty divided by five?
- 7 How many sides does a hexagon have?
- 8 Look at your answer sheet. What fraction of the triangle is shaded?
- 9 What is the product of twenty-eight and ten?
- 10 How many centimetres are there in one quarter of a metre?

For each of the next questions you have ten seconds to work out and write down the answer.

- 11 I have a piece of wood one metre long. I cut off a piece forty-seven centimetres long. What is the length of the remaining piece?
- 12 What is the fifth month of the year?
- 13 Look at your answer sheet. What is the total of the two odd numbers?
- 14 I have five pounds and spend two pounds ninety-nine pence. How much change do I have?
- 15 Look at your answer sheet. What time is shown on the clock?
- 16 What is the total of thirty-eight and seven?
- 17 What is half of twenty-six?
- 18 What is the remainder when thirteen is divided by four?
- 19 An equilateral triangle has sides measuring five centimetres. What is the perimeter of the triangle?
- 20 I have three fifty pence coins and one twenty pence coin. How much money do I have altogether?

Put your pencil down. The test is over.
