CAREERS BULLETIN

Year 11 Leamington Football Academy

If Year 11 students are considering a career in sport and want to improve their footballing skills whilst gaining a nationally recognised qualification as a next step, then you are invited to Leamington Football Club Academy presentation and trials on Friday 22nd February or Friday 31st May at Moreton Morrell College. This will provide students with an opportunity to speak with lecturers and coaches to find out about the two-year Level 3 Diploma in Sport. On successful completion, this will provide students with a nationally recognised qualification which will take them onto the next step in their career whether that is university, full time employment, apprenticeships or even part-time, full-time or scholarship football playing roles.

In addition, they will find out about becoming a full-time academy player for Leamington Football Club for the duration of the two-year course, receiving coaching from UEFA qualified coaches and participating in weekly academy matches at the Phillips 66 Community Stadium.

If this is a career path Year 11 students are considering and would like to attend the open evening, please email footballacademy@wcg.ac.uk to confirm your attendance.

Year 10 Unifest Summer Schools

Unifest Summer Schools take place at 6 universities across the West Midlands. It gives Year 10 students the opportunity to explore university life and to study a subject they love in greater depth. If students wish to apply to attend Unifest, please speak to **Mrs Miles** (Careers Office) by **Thursday 14 February**.

FREE Degree Apprenticeship Information Evening, University of Warwick

University of Warwick are hosting a **Degree Apprenticeship Information Evening** to help students and their parents find out more about how Degree Apprenticeships work, debunk some of the myths and answer questions.

When: Thursday 7th March 16:00-19:00

Where: WMG, University of Warwick, Coventry, CV4 7AL

To find out more about this event and to register your place, please visit:

<https://warwick.ac.uk/fac/sci/wmg/education/degree-apprenticeships/information-evening>

Year 10 – 13

PWC- Females of the Future Event, Birmingham, March

The day-long event (10am-3pm) is open to Year 10 - 13 students and will be held at a PwC office. The event will consist of a series of fun activities with guest speakers and the opportunity to ask lots of questions in a relaxed environment, allowing students to learn more about what it's like working at PwC. The event will explore the career options in Accounting and Technology. **If students would like to attend this event, please speak to Mrs Miles (Careers Office) by Thursday 14 February. Applications to attend this event will close at the end of the week.**

Find out more and register at eventbrite.co.uk
(search BMW Group Apprenticeship Open Evening).

YRS 11 AND 12

DIGITAL RAILWAY ENGINEERING

29 July - 1 August 2019

UNIVERSITY OF BIRMINGHAM

4 days full board residential course

£195

The demand for rail transport is increasing with a new generation of railway engineers needed to meet tomorrow's challenges. These engineers will need a range of skills to deal with technology from traditional heavy engineering to cutting-edge digital technologies.

This course includes a series of lectures to give you a feel for what university life is like, covering a range of subjects including:

- The challenges the railways face and the advanced technology they increasingly use to make them safer, cleaner, more efficient, reliable, greener and cost-effective
- How trains protect their passengers in the event of a crash, why aerodynamics are so important for high speed trains, and why train control systems are so complicated and expensive
- How you could contribute to this growing industry as an apprentice or graduate engineer
- Work in a small team to tackle one of two design challenges to either design, build and test a scale-model crashworthy rail vehicle, or develop a next-generation train control system. Your design will need to meet a challenging specification based on real-world requirements, and you'll be competing with other teams to see who comes up with the best solution.
- Enhance your CV and make your UCAS application stand out.

Advanced Apprenticeship Programme

The apprenticeship combines Bosch training with an employment opportunity at a local garage, where you will spend the majority of your time. You will gain **knowledge, skills and practical experience** in the workplace as well as at the training facility. As an apprentice you will receive both essential theory and practical instruction, learning about automotive systems, diagnosis and repair.

Each apprentice will spend 17 weeks (1 week blocks) during the 3 year apprenticeship at the purpose-built training facility working on current models and equipment, with the rest of the apprenticeship undertaken in the workplace. A dedicated trainer will come and visit every 12 weeks to provide **support and guidance** and check on the qualification progression.

Find out more today:

Call **03444 120040** or email **apprentice.uk@bosch-automotive.com**

Or visit **bosch-automotive-apprentice.co.uk**
