Benefits of attending ....

Would you like your NQTs to benefit from a structured programme of support and professional development designed to complement your in-school NQT provision to support them through their NQT year and help them to develop into reflective practitioners?

The NQT Development Programme will enable participants to reflect upon and celebrate their first year of teaching whilst preparing for their second year, within a supportive and inspirational environment. This programme will enable NQTs from different schools to meet and share their experiences with each other, enabling the sharing of best practice and next steps through a learning and teaching based agenda.

Participants will take an active part in a range of workshops and discussion groups and take part in cross school visits.

The year is completed with a day conference where we will celebrate the NQTs’ success and start to look forward to their second year of teaching.

---
