

Raising attainment in primary science

Ofsted say that the most important role of teaching is to raise pupils' achievement.

We can help you to make your good lessons outstanding by investigating how to raise attainment in the classroom.

The course

Evaluate science in your school to help you to identify and fully understand current levels of attainment. Investigate teaching and learning strategies to help you turn good lessons into outstanding ones.

Outcomes

You'll develop an understanding of key issues relating to raising attainment. This will include discovering a range of activities to use in the classroom to support this and how to create a learning environment that meets children's needs.

"I was given valuable space and a forum for considering priorities and approaches to raising the profile and ultimately the attainment in science in my school. I was given approaches and activities which I could see fitting into our framework."

Angela Ellis, 2016 participant

Date: 31st January 2018

9.00 – 3.30pm

Pricing: £175

Location: Lapworth Primary School, Station Ln,
Lapworth, Solihull B94 6LW

What are you looking for?

PROFESSIONAL DEVELOPMENT

We offer high-impact professional development across the UK, and online, based on the latest developments in both pedagogy and STEM subjects. We can also tailor professional development to your school's specific needs with our bespoke CPD.

CAREERS EDUCATION

As well as a host of excellent resources on our website including the Careers Toolkit, we also run the STEM Insight programme to give you a unique experience in industry or university through inspiring placements.

INSPIRATION

We've got a host of ways to help you inspire your students: why not bring a STEM Ambassador into your school to talk about STEM subjects and careers, or start a STEM Club to build confidence and teamwork skills?

COMMUNITY

Share your ideas and challenges with teachers and technicians through our online groups and at our networking events. And join us on Twitter - we have over 20,000 like-minded educators following us.

National STEM Learning
Centre and Network

RECOGNITION

Our recognition schemes and awards allow you, your department and school to showcase the impact you have on your students and colleagues.

RESOURCES

We have over 38,000 quality, STEM teaching resources, available online or at our centre. You can also browse teacher-made resources and submit your own.

STEM Learning operates the National STEM Learning Centre and Network, alongside other projects supporting STEM education
