

# Inspiring new Science Teachers - a 1 Day Conference

Varied programme

**Tuesday 11th July 2017**

A day of exploring best practice in the science subjects ideal for those in their first 3 years of teaching. The day will include a keynote speaker and a range of workshops and seminars. Key themes will include: Assessing without levels; developing practical skills in Biology, Chemistry and Physics; Mathematics in the new science GCSE and leading extra-curricular and enrichment activities.

## Space chemistry

Come along and hear from the Royal Society of Chemistry about their exciting range of FREE resources to bring the wonder of space into your science classroom. Take part in this year's global experiment to protect an astronaut from UV in space, find out how to build your own rocket and discover profiles of chemists in space.

## You will:

- be inspired to vary your practice back at your school with new ideas and practical skills
- make new contacts with science teachers who are at a similar point in their career

Code	RC236 / H02
