7 January 2018

Dear Families

A level Biology Field Studies Trip – Monday 11 February to Wednesday 13 February 2019

Thank you for your positive response to the proposed A Level Biology field trip. I am pleased to say that the trip is going ahead however please note the change to the dates which is at the request of Juniper Hall. Students will depart on Monday morning and return on Wednesday afternoon. Full details of timings will be given nearer the time.

As part of the A level Biology course, this is a fantastic opportunity for the students to receive hands-on tutoring from subject experts at the centre, complete their required practicals on the ecology topic and consolidate their subject knowledge in preparation for the forthcoming exams.

The trip is at £171 per student which includes transport, full board accommodation for 2 nights including breakfast, lunch and evening meal, in addition to a full programme of ecological studies of the different habitats around Juniper Hall. Students will be able to investigate populations of species using statistical analysis models and formula to complete their investigations. It is recommended that all students attend this field trip which will include examinable content.

Please complete and return the permission slip and make your payment via your ParentPay account by Friday 18 January 2018.

In cases of financial hardship it may still be possible to attend this trip at a reduced cost. Please write to the Headteacher, in confidence, outlining the circumstances.

Yours sincerely

Mr J Taylor
Curriculum Leader for Biology

A Level Biology Field Studies Trip 2018

Student Name: _____ Tutor Group: _____
