Dear Families

We wish to draw your attention to the new revised curriculum section of our website which has undergone a significant overhaul to now include the information listed below. All necessary details are available relating to all aspects of our curriculum and staffing, including greater clarity of when assessments will take place, which we know has been a request of parents.

- **Introduction** to include structure of the school day, lesson provision and a comprehensive guide to the curriculum
- **Options at KS4** details of the subjects available and our Options booklet which provides more detail of each course
- **Subject Information** key information about each subject, it's provision at KS3, KS4 and KS5, the Exam Board followed and the subject staff
- **Assessment** summarises the reformed GCSEs, provides detail of our target setting process and the assessment system in KS3. Also available in this section are assessment calendars for next year, indicating when key assessments are due to take place. These can be viewed by subject or by Year Group.
- **Learning journeys** our new student-friendly summaries of the expected skills required at each assessment band, for each subject. These are designed to support student learning and provide clarity for parents of strengths and areas for development.
- **Curriculum Review** includes all documents relating to our on-going whole-school curriculum review.

Please do take the time to visit our website and we hope this will enable you to help prepare your son/daughter for a new and an exciting year in September. Before then, please do enjoy a relaxing and enjoyable summer break.

Yours sincerely

Mr Ribolla

Deputy Headteacher
