## **Re: Year 9 Maths Exam**

Dear Families

All Year 9 students will be sitting one 45-minute end of term maths exam. Your child will have their exam in their normal maths lesson either on Wednesday 7<sup>th</sup> February or Thursday 8<sup>th</sup> February depending on which day they have maths.

The exam will cover all work learnt since the start of the Spring term and resources to support the students are available on the Year 9 maths page of Firefly:

- Select "Revision Booklet" for a document which lists the topics and contains practice questions. Their class teacher will be guiding them in the use of this document.
- Select "Topics" for documents showing the order and details of each module that has been taught, with references to pages in the text book.
- Select "Textbooks" for PDF versions of the textbook and the homework book. At the end of each chapter in the textbook is a consolidation exercise which is an ideal revision resource, and the previous pages in each chapter may be used as a revision guide. Additionally, students may use the homework book to improve on topics identified through the consolidation exercises.

Your child's class teacher will also give some time for revision in class and support them in their preparation. Please ensure your child brings all the equipment needed for the exam including a compass, protractor and a calculator.

Kind Regards

Miss C Scott  
(ACL Mathematics)
