22 May 2017

Dear Families

Final Preparations: Mathematics Examinations

I am writing to remind you of resources and tips for final preparations for the upcoming maths exams.

Your child has been informed about practice papers and mark schemes on Firefly and they should now be concentrating on Paper 1 in preparation for Thursday (There are six Paper 1 practice papers available).

Your child also knows about the maths lessons offered through the modified timetable so please encourage them to attend if they do not do so already.

Additionally, your child’s maths teacher will be available in rooms along the maths corridor from 8am on the morning of each maths exam, to give last minute encouragement and reminders.

On Thursday 25 May, in the afternoon, we will be making an additional set of papers 2 and 3 available on Firefly, in addition to the 5 sets currently available.

I am expecting Predicted Papers to be sent to me by the end of Friday 26 May, following the first exam, and will also make these available on Firefly.

Please note that Paper 1 on Thursday 25 May is Non-Calculator but your child should come with all other maths equipment. They should bring their calculator to both other maths exams.

Yours faithfully

Ingrid Kosch
