19 January 2018

Dear Families

As part of our provision for Gifted and Talented Mathematics Students we are delighted to be able to offer students in Year 10 the opportunity to study the Additional Mathematics Level 3 course.

This course is aimed at students who are expecting to achieve a grade 7, 8 or 9 in their Mathematics GCSE. It provides students with an introduction to some A-Level Topics and helps to reinforce understanding of some of the grade 8 and 9 GCSE topics. It is highly recommended for students considering studying Maths beyond GCSE as it introduces students to the power and elegance of advanced mathematics and enables them to experience the directions in which the subject is developed post-GCSE.

The course will commence in the week beginning 22 January 2018 and be offered on Tuesdays and Thursdays from 3.30pm - 4.30pm within the Mathematics Department. Students may choose which day they wish to regularly attend. This course will continue into Year 11 and the students will have the option to sit the Additional Mathematics Award in June 2019 in addition to Mathematics GCSE.

Students wishing to participate will need to purchase the question book at a reduced cost of £8.00 (OCR Additional Mathematics Practice Book RRP £9.50). The book can be pre-ordered from the Mathematics department and the students will receive their copy once the classes begin. We will also issue the students with purple workbooks.

Whilst the course is challenging I cannot recommend it highly enough as preparation for A-Level Mathematics.

Please complete the reply slip below if your child wishes to attend the classes and indicate a preference as to the day of week. There is a limit of 30 spaces per class. Slips should be returned directly to your child's maths teacher.

Yours faithfully

Ms I M Kosch
Curriculum Leader Mathematics
