Dear Families

Year 11 Science Revision Resources

Your child will shortly receive an exam practice workbook and answer booklet to help support their revision for their forthcoming GCSE Science examinations.

These workbooks contain exam style questions on every topic included in the GCSE curriculum. The separate answer booklet provides them with model answers for each question to check their understanding. As this is the first year of assessment for the new Science specification there are no past exam papers available yet, so these books will help students become familiar with the type and format of questions that may appear in their actual GCSE examination this year.

Your child will benefit most from these resources if they establish a routine of completing a certain number of questions or topics on a regular basis and then marking their work. You may want to support them with this by providing them with the answer booklet when they have spent the allocated time on the questions.

If, during completion of these questions, students identify particular topics that they are finding more challenging then please encourage them to seek some additional support either during or after the school day. As a reminder, our Subject Leaders are:

| | |
|-----------|--------------|
| Biology | Mr J Taylor |
| Chemistry | Ms M Walshe |
| Physics | Mr D Knocker |

Thank you for your support.

Yours faithfully

Mrs R Foley
Curriculum Leader Science
