21 September 2017

Dear Families,

It has been proven that when students do further reading around their subjects, they develop a greater knowledge and wider understanding, leading to higher chances of exam success. In Geography we have an exciting opportunity for your child to subscribe to a quarterly publication called 'Wideworld' written by Hodder Education. For the sum of £10 your child will receive a publication in September (which will be back dated), November, February and April.

Why subscribe to 'Wideworld'? It will enable your child to have access to articles by subject experts and examiners; it has more up-to-date case studies and topical coverage than what can be provided from a textbook and revision material and it will also help sharpen their study skills with advice on exam technique and analysis of sample questions. An example page is attached to this letter.

If you would like your child to receive this publication please return a completed subscription form (on the attached document) with a cheque for £10, payable to Bookpoint Ltd, by Friday 6 October.

If you have any questions please do not hesitate in contacting me or your child's Geography teacher.

Yours faithfully

Adam Hansen

Subject Leader in Geography
