25 May 2018

Dear Families

I am writing to let you know about additional resources that are available for your child to revise for Papers 2 and 3 in GCSE Mathematics.

Following Paper 1 that students sat on Thursday 24 May, four sets of 'Between Papers' questions have been created by the "Just Maths" organisation. There are three sets that focus on the cross-over questions that are in both the Higher and Foundation papers, and there is one set of questions that are only in the Higher papers. These resources have been created after analysing the topics examined in Paper 1 yesterday and have been made available to all students on Firefly. Please ensure that they access these on the Year 11 Mathematics area. Your child should attempt the questions and check against the Markschemes that are also provided.

Previously, your child has been informed about the six packs of Practice Papers and Markschemes that are available on Firefly and they should also be working through questions in Paper 2 and Paper 3 of these packs in preparation for their remaining two Mathematics GCSE exams after the half term break.

Your child also knows about the maths lessons available through the modified timetable so please encourage them to attend if they do not do so already. Full details of the modified timetable are available [here](#) on the school website.

In addition, your child's maths teacher will be available in rooms along the maths corridor from 8.00am on the morning of each remaining maths exam to give any last minute support.

Yours faithfully

Ms I Kosch
