27 March 2018

Dear Families

The mathematics department is currently returning the mock papers that students sat in March. Staff are ensuring that time is spent by students on practising elements of the papers that they have found challenging.

Before the Easter holiday, students will have received their three mock papers from their maths teacher. They will also receive a personalised learning checklist for each paper, which highlights topics with high marks and those where clear improvements can be made. This should assist them precisely where they need to target their revision. These personal learning checklists should be fixed into their maths books. Students have already completed some work on their identified areas for improvement.

Class teachers will be setting specific tasks for your child to complete over the Easter holiday in order to support them in securing the best grade possible in the upcoming exams. These tasks will include at least one practise exam paper. All work is due back on Monday 16 April.

I hope this information helps you to support your child with mathematics at home.

Yours faithfully

Ms I Kosch
