## **Year 8 Science: Young Engineers Club - Digital Photography Course**

Dear Families

I am delighted to offer Year 8 students a Digital Photography Young Engineers Club, starting in September.

The workshops will be run by 'Imagining Partnership' and will take place every Thursday from 3:30pm -4:30pm for a period of 6 weeks, starting Thursday 13 September. They are designed as a fun and creative way of learning how optics (photography) is linked to engineering, science and maths, and will include topics such as biotechnology, optical engineering and informatics.

Students will need to bring their own digital cameras (smart phones or tablets are suitable), as well as a notepad and pen. Some of the practical work will take place outside on school grounds, so students may need a coat or jacket.

The club will need a minimum of 12 pupils in order to make the course viable and will have a maximum number of 35. The cost of the six week course is £24.00 per pupil, payable in advance.

If you would like your child to take part, please complete the attached Registration Form and return it to the School by email to [info@teddingtonschool.org](mailto:info@teddingtonschool.org) marked for the attention of Ms Athwal.

Places will be allocated on a first-come-first-served basis. If there are more than 35 students who would like to attend then we will run a second workshop later on in the year. All payments will need to be received in school before the start date and payment details will be sent to you once your place is confirmed.

We are very much looking forward to working with the Imaging Partnership on what I am sure will be a fun and fruitful experience for some of our year 8 students.

Yours faithfully

Ms S Athwal  
Key Stage 3 Lead, Science
