

Hello my name is Freya I'm in 7 Amethyst and I used to go to St Matthews primary school. When I was first introduced to choosing a secondary school I was worried and scared of the thought there would be no better place than my primary. But as soon as I stepped into Tolworth Girls School I immediately felt at home, like it was where I belonged.

On my first day I was as excited as it was a whole new life for me and a massive change. I was also scared about friends though, I thought my form was nice but it couldn't beat my old class but in fact it has. I have made friends with practically all my form and I have made some of the best's friends ever. My tutor is amazing and funny but quizzes us on football for cakes as prizes. Our head of year is really nice and kind, she makes assembly's (which is every Tuesday for us) really exciting and teaches me a lot.

I think Tolworth is a fun school and it is so warming and loving, you may think the teachers are going to be scary and mean but in fact they are very nice and explain things a lot clearer. Homework isn't actually that bad and I enjoy decorating my books to make them fun and look colourful and bright. There are new subjects at Tolworth that you may or may not have done at your primary school. I love drama, music and dance as their subjects I didn't do at my primary school properly as the only dancing we did was country dancing and sang hymns or perform poems. I'm also really enjoying English and History as there also subjects I enjoyed in primary school.

There are loads of clubs to join weather you're more of a sporty girl, to the theatrical girl maybe you're a writer in the making or a scientist and even more tolworth has got them all. A problem I was facing when I first started was I thought I would get lost around the school, I'm not going to lie it's a massive school and easy to get lost in. However In time at your own pace you will find your way around the school and soon know it inside out. If you get lost in the first few weeks your excused to be late for class but remember there are loads of older children who know their way around so you can always ask them.

The library is also great place to go to do homework, reading, looking, taking out books, research and so much more. They are so lovely in the library and are very supportive and will help you with anything you need weather its finding a book or printing something, I know I have needed help with the printer quite a lot. Then there is munchies there food is so delicious, yummy and there is a wide range of food.

I am very happy I have made the decision of picking Tolworth and I'm more then glad I chose it and I hope if you choose Tolworth you will have a very happy 5 years or even 7. Thank you for listening.
