GERALDINE
Dear Ms. Davies:

Thank you for the opportunity to speak with the 110 students who are currently doing an intensive course in astronomy or otherwise focusing on science, technology, engineering, and math fields at your academy. It was heartening to receive so many excellent questions from obviously very bright and enthusiastic students. I also greatly appreciated the opportunity to tour the Academy with you and members of your staff. You are leading a very impressive operation.

I also appreciated the efforts of your team, particularly Ms. Emma Jobson, in arranging the visit on short notice. They managed all details flawlessly and implemented a perfect schedule.

Finally, thank you for the 3-D crystal of UCL. It will be a great reminder of a rewarding visit to an excellent school. All the best for UCL Academy's continued success!

Sincerely,

A handwritten signature in black ink, appearing to read "C. Bolden, Jr.", with a long horizontal stroke extending to the right.
