NEWSLETTER

Scheme CCS Registration Number: 103039

June 2017

Works on the refurbishment of the Infants block are nearing completion and are on schedule to handover the building in late July. In the last few months we have remodelled the internal layout, provided new toilet facilities and upgraded the heating, lighting and ventilation system. The ten classrooms have been provided with new Smart screens, floor finishes and fitted furniture. Externally we have provided a new landscaping scheme including a rubber crumb soft play surface within a secure fenced off area. The coming weeks will see the building commissioned and fitted out with loose furniture reclaimed from the old Junior school.

Once the summer term ends on the 21st July 2017 we shall commence preparing the old building for demolition. This initially will involve the removal of all fixtures, fittings and equipment before the termination of live services. Once completed a thorough survey of the building will be undertaken to ensure we have sufficient information to allow the building to be safely dismantled and cleared from site for recycling. The area will then be landscaped with hard and soft play areas before finalising the scheme as a whole in December.

• If you have any comments please complete the slip overleaf and post through the letter box at the site entrance. We will endeavour to respond to you shortly.
