

# What is Renaissance Home Connect?

## Renaissance Home Connect is... Connecting Parents and Extending Practice

Renaissance Home Connect improves the school-to-home connection by allowing parents, carers and children to log in to a website and view their child's reading and maths practice and progress towards targets. Access to online results promotes discussion between parents and children, which motivates children and can make reading and maths practice even more effective. In addition, parents can specify up to six email addresses to receive automatic updates on their child's maths and reading progress.

Renaissance Home Connect is accessible to all Accelerated Reader Advantage, Accelerated Maths Live and MathsFacts in a Flash customers.

Two steps are required to get Renaissance Home Connect up and running:

1. An administrator clicks **Manage Availability** (under Renaissance Home Connect on the Renaissance Place Home page) and follows the instructions.
2. Once activated, teachers click **Reports** (under Renaissance Home Connect on the Home page) and print the Informational Letter to be sent home with each child.
