

Columbus Day Telescope

You will need:

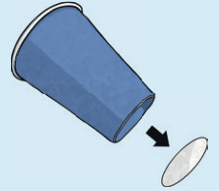

- Long cardboard tube
- Paper cup
- Masking tape
- Scissors
- Markers/paints/
stickers for decoration

Directions

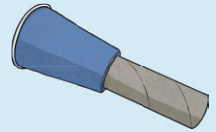

1

Cut the bottom out of the paper cup.

2

Slide the paper cup over the cardboard tube and attach to the end of the tube with masking tape. (If the cup is too big, cut a slit up the side of the cup, overlap the edges until it fits the tube and secure with tape.)

3

Decorate with markers/paints/stickers.

4

Now pretend you are Christopher Columbus at the helm of your ship, ready to explore the world!
