## THE I CAN SPEECH AND LANGUAGE NURSERY AT TANGLEWOOD

OFFICIAL OPENING - FRIDAY 19 NOVEMBER 1993

**"It's imperative that children with specific speech and language impairment receive intensive professional help as soon as possible. Pre-school children are learning how to communicate so that when they go to school at 5, they have a language system in place to help them learn."**

Michelle Parker, Senior Speech & Language Therapist

### The Nursery

The I CAN Speech and Language Nursery is a specialist nursery school for pre-school children with specific speech and language impairment.

It is the first nursery of its kind in Essex and only the fourth nationwide.

The I CAN Speech and Language Nursery is being run as an integrated part of Tanglewood Nursery School, an established mainstream nursery in Chelmsford, Essex.

The nursery began operating in September 1993. Today is its official opening and a chance for the region's education and health authorities and the media to hear more about the problem of speech and language impairment and see I CAN's approach in action.
