

# Parent App

**Download the app or use on a desktop/laptop via a web browser**

- Contact details
- Attendance
- Commendations & Behaviour
- Events
- Reports
- Grades, targets, progress

# Parent App – logging in

- To login to the ParentApp, you use one of your existing accounts (from Google, Microsoft, Office 365, Facebook or Twitter)
- Invites for new students will be sent on 11.09.19
- Because you are using an external account, if you have forgotten your login details **we cannot reset your username or password**; for instance, if it was your Google account that you were using, you would need to reset your password with Google themselves.
- If you don't wish to install and use the app, then you can visit <https://www.sims-parent.co.uk> from any computer to login instead without installing any software.
