

Knowledge Organiser - Savage Stone Age

Year 3 - History

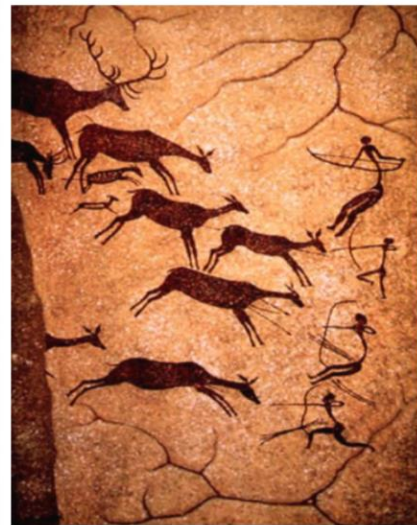

Key Vocab	Definitions
Stone Age	A pre-historic period of time where people used mostly stone to make tools and build houses.
Pre-historic	A period of time before written records of information were produced.
Century	100 years
Artefact	An object made by a human being in the past.
Archaeologist	A person that studies human history (and pre-history) and artefacts.
Evidence	Information stating whether something is true or not.
Tools	Equipment used to do jobs with, for example, axe, saw, hammer...

Tools in the Stone age were made out of wood and stone. These were used to hunt for animals.

In the Stone Age people drew and painted images of everyday life on the inside of caves. These survived for thousands of years and are called Cave Paintings.

People in the Stone Age built their houses out of stone and straw, usually in the shape of a circle with a fire in the centre to keep warm. These are now known as Round Houses.
